SUMMARY

A Passionate developer focused on building engaging web applications and innovative solutions. I specialize in full-stack development using technologies like Next.js, TypeScript, Prisma, and Redis, with a knack for integrating real-time features and scalable platforms. I love creating games, community platforms, and solutions that connect users while maintaining performance and simplicity.

SKILLS

HTML5, TypeScript, JavaScript, React, React Native, Next.js, Redux, React Query, React Router, React Hook Form, TailwindCSS, SASS, Node.js, Express.js, JWT, MongoDB, PostgreSQL, MySQL, Redis, Prisma, Socket.io, NPM, Yarn, Git, GitHub, Vercel, Netlify, Render, Heroku, AWS.

EXPERIENCE

Synproxi Technologies, Lagos — *Front-End Development Instructor*
Mar 2024 - September 2024

- Delivered comprehensive frontend development training, focusing on modern technologies like React, TailwindCSS, JavaScript, NextJs and TypeScript.
- Designed and conducted hands-on workshops to enhance practical skills in building responsive and dynamic user interfaces.
- Mentored and guided junior developers, fostering their growth and helping them achieve career goals in web development.
- Introduced project-based learning, enabling trainees to build real-world applications solidifying their understanding of core development principles.

Meganet Limited, Lagos — *Lead Web Developer*

Feb 2023 - Oct 2023

- Leveraged NextJS to build interactive and responsive user interfaces that enhance user engagement and satisfaction.
- Led the process of hosting websites on cloud platforms, optimizing load times and ensuring a smooth user experience through fast delivery and reliable hosting solutions.
- Contributed to generating increased website traffic and user engagement through effective SEO and user-centric design.

Ububa Technology, Port Harcourt — *Front-End Engineer*

Apr 2021 - Feb 2022

- Collaborated with a team of developers to create responsive and user-friendly web applications.
- Developed and implemented new features using Javascript, React and NextJS.
- Utilized modern web frameworks and cloud infrastructure for efficient development.
- Worked closely with designers and back-end developers to ensure seamless integration of front-end and back-end components. Conducted thorough testing and debugging, optimize performance and ensure high-quality code

EDUCATION

Rivers State University, Port Harcourt

Bachelor of Science in Computer Science

Sept 2017 - Feb 2022

- Gained a strong foundation in computer science principles, including programming, data structures, algorithms, and systems analysis.
- Designed and implemented an online voting system for the final-year project, focusing on secure user authentication, database management, and real-time vote tallying.

CERTIFICATIONS

National Youth Service Corps (NYSC) — *Completed*

REFEREE

Dr White, Stella Tonye

Lecturer - Department of Computer Science

Rivers State University, Port Harcourt
